

## Paralegal in IP law (m/f/d)

**We know:** Even though our main focus is on classical engineering areas such as electrical engineering, it is not physics but rather chemistry that ultimately decides when choosing an employer. Apply now. This is the only way we can find out together whether you can add value to our appreciative team.

### **Your advantage:**

As a Paralegal in IP law (m/f/d), a comprehensive familiarization phase will be followed by independent and autonomous work as a member of our team. We are happy to offer you the opportunity to apply and further expand your existing specialist knowledge.

### **What we offer:**

Flexitime and attractive home office arrangements are complemented by 30 days of annual paid leave, a 13th monthly salary, and modern workplaces. A range of beverages, occasional meals and team activities round off the good atmosphere in the offices of our law firm.

### **Our ideal candidate profile:**

You have successfully completed your patent attorney training and love to work in a structured manner, independently and diligently. You possess very good knowledge of the German and English language. You are virtually hired already at this point if you also enjoy working in a team and consider yourself extremely reliable and committed to your work.

### **Who we are.**

For over 70 years, the patent attorneys at IP law firm Westphal, Mussnug & Partner have been trusted partners who provide individuals and companies with advice and support in the process of applying for protection of intellectual property rights as well as in their enforcement and commercialisation in all technical areas – e.g. electrical engineering, mechanical engineering, mechatronics and robotics.

Our mission and passion is to assist our clients in turning their ideas into success stories. The law firm's offices in Munich and in Villingen-Schwenningen serve both national and international clients.
