Candidates for patent attorney training (m/f/d)

Attention science and engineering graduates – get ready to turbocharge your career prospects! If you are about to complete your degree, maybe already gained some practical experience in the industry, then we encourage you to apply for the specialist training to become a patent attorney.

Your advantage:
In addition to another great opportunity to advance your career, your graduation will be followed by a permanent job with a generous remuneration package, as well as financial support and time off for all of your continuing education activities.

Your patent attorney training:
In order to be admitted to the patent attorney training, you need to hold a degree in a science or technology discipline, e.g. in electrical engineering, mechanical engineering or physics. It is precisely these degrees that add value to our team when we are tasked with professionally handling inventions. Completion of the training will qualify you for the profession of a German Patent Attorney as well as European Patent Attorney. This job of a patent attorney broadly encompasses the evaluation of inventions, preparation of patent applications, observation of competitors, as well as representation of clients in court.

What we offer:
Right from the beginning of your training at one of our renowned and innovative law firm's two offices in Germany, you will be part of an outstanding team and enjoy the benefits of a generous remuneration package. Cost coverage and extensive support across all phases of your patent attorney training. Flexitime and attractive home office arrangements are complemented by 30 days of annual paid leave, a 13th monthly salary, and modern workplaces. A range of beverages, occasional meals and group activities in the team complement the good atmosphere in the offices of our law firm. Once you have completed your patent attorney training, a secure job in our firm is virtually guaranteed.

WESTPHAL MUSSGNUG + Partner

Who we are.
For over 70 years, the patent attorneys at IP law firm Westphal, Mussgnug & Partner have been trusted partners who provide individuals and companies with advice and support in the process of applying for protection of intellectual property rights as well as in their enforcement and commercialisation in all technical areas – e.g. electrical engineering, mechanical engineering, mechatronics and robotics.
Our mission and passion is to assist our clients in turning their ideas into success stories. The law firm's offices in Munich and in Villingen-Schwenningen serve both national and international clients.

Westphal, Mussgnug & Partner. Turning ideas into success stories..
